

An artist's conception of the Town's new Wastewater Treatment Plant has been chosen for the cover of the 1978 Annual Town Report.

The twenty-million dollar Water Pollution Control Project is in the second year of construction. Completion is scheduled for early Summer of 1980.

The project was authorized by the voters of the town at the annual town meeting of March 8, 1971.

The following members of the Board of Selectmen have participated in the Planning and Construction phases of the project since 1971:

#### 1971

Thomas W. Haley Leo F. St. Amand William Lemanski

#### 1972

	55	
reasurer (55 at \$10.00)		\$550

Paid Town Treasurer (55 at \$10.00) ......\$550.00

The following Vital Statistics were received for record for the year ending December 31, 1978:

Number of births	118
Number of marriages	159
Number of deaths	165

John T. Brown Town Clerk

### VITAL STATISTICS

The attention of parents and others is called to the following Vital Statistics. It is important that the records should be correct. If any errors or omissions are discovered, the Town Clerk will deem it a favor to have the same reported to him at once, and he will make the corrections in accordance with the law. Parents should see that a proper return of birth is made as it may be of great importance in after life.

#### REPORT OF THE POLICE DEPARTMENT

The annual report of the Police Department for the year ending December 31, 1978 is submitted as follows:

On January 31, 1978 Chief Henry S. Janasiewicz retired as head of the Plamer Police Department. Appointed as patrolman in 1948, promoted to sergeant in 1961, and as Chief in 1976, he gave the Town of Plamer thirty years of dedicated service.

Officer John Janulewicz was appointed as Class "C" patrolman in the department effective August 8, 1978; Sergeant Howard Case was appointed to the permanent position of Sergeant effective October 31, 1978.

Officers Vincent Barone and John Janulewicz, Jr. graduated from the Springfield Police Academy after twelve weeks attendance. Sgt. Howard Case, Officer Sidney Clark, and Officer Roger Jalbert have been qualified in the use of the breathalyzer. All full time and intermittent police officers attended First Responder and CRP courses and were awarded certificates.

Officer Robert Couture has been transferred onto days to provide the community with additional patrol coverage. Paul Graveline was appointed as civilian dispatcher under the CETA program.

A total of \$3,167.00 was turned over to the Town Treasurer for Pistol Permits, Firearms Identification Cards, and from monies received from accident reports forwarded to insurance companies.

Our patrol cruisers covered 403,576 miles; there were 257 accidents investigated. There were 154 property damage accidents, 101 personal injury accidents with 142 persons injured, and 2 highway deaths reported.

A total of 838 complaints against 518 defendants were issued; there were 476 male and 42 female defendants; 88 juvenile complaints were issued. 240 persons were detained under protective custody. There were 84 persons enrolled in Driver's School as a result of arrest for operating under the influence of alcohol; 21 persons were enrolled in Defensive Driving School.

The electronic alarm system within the Police Station has been revamped and centralized in an attempt to update and condense the old alarm system.

The Department has obtained through the Governor's Highway Safety Program a movie projector, screen, and films. The total value of these items is in excess of \$3,000.00 which was awarded through a grant to the town.

I wish to thank the Honorable Board, the Townspeople, and Police Department associates for the cooperation given me in the past eleven months as Acting Chief of Police.

Sincerely,

Harold L. Olson Acting Chief of Police

#### REPORT OF PALMER AUXILIARY POLICE ASSOCIATION

As President of the Palmer Auxiliary Police Association, I wish to report that the unit performed in a highly satisfactory manner for the year 1978.

The Auxiliary assisted in the various community functions they were assigned to and also assisted the Regular Dept. in patrols and other duties mandated to them.

I wish to thank the Honorable Board of Selectmen, Ret. Acting Chief Henry S. Janasiewicz, and the present Acting Chief, Harold Olson and the members of the Palmer Police Dept. for their assistance and cooperation rendered to us in the past year.

I wish to thank all the members of the Palmer Auxiliary Police Association for a job well done and for the cooperation they have shown me in the past year.

Respectfully submitted,

Raymond F. Labonte, Sr. President

#### REPORT OF THE FOREST FIRE WARDEN

I herewith submit my report as Forest Fire Warden of the Town of Plamer for the year 1978.

This department responded to a total of 29 calls during the year.

12 for Forest Fires and brush in Plamer Fire District.

17 for Forest Fires and brush.

The Palmer Fire Department responded to four calls in the Township of Palmer not covered by other Fire Districts.

In January of 1978 the Town of Palmer received its new Forest Fire truck which has met all of our expectations.

The new truck has been used extensively on Out of District calls which has enabled us to cut the budget substantially.

At this time I would like to thank all neighboring Chiefs and men of the other Fire Departments that helped us during the year.

I also wish to thank your Honorable Board and the Palmer Police Department for the cooperation and help received during the year.

Respectfully submitted,

Gus A. Theodore Forest Fire Warden

### REPORT OF THE DOG OFFICER

For the calendar year ending December 31, 1978, I have traveled 5,635 miles regarding complaints in which 119 dogs were picked up. Of these 119 picked up 26 were released to owners, 59 were put to sleep by Dr. Harvey at \$10.00 each, 3 put to sleep by the Dog Office, 16 killed by automobiles and 15 strays were given away.

Respectfully submitted,

Frederick J. Guzik, Jr. DOG OFFICER

### REPORT OF THE PARK COMMISSIONERS

Following is the Park Commissioners report for the twelve month fiscal year beginning July 1, 1978 and ending June 30, 1979.

Regular meetings of the Park Commission are held on the third Tuesday of each month at 7:30 P.M. in the Town Administration Building.

In September of 1978, a new F-350 Crew-Cab Pick-up Truck was purchased from, low bidder, Dave Russell Ford. New C.B. radios were installed in all Park Department vehicles.

Three more regulation horseshoe courts were constructed at New Burleigh Park bringing the total to six, thus making this an attractive site for local horseshoe tournaments.

Rewiring of the Legion Field garage was installed to allow for larger service to handle the concession stand and press box.

One light was contributed by the Park Department for the lighting of the field at Water Street. This field is used by the Palmer High School and Palmer Cowboys football teams for practice sessions. Also an area was cleared of brush and some trees to allow construction of a new football field at Water Street.

The tennis courts at Palmer were repaired by installing some 700 feet of pipe around the bottom of the fence making it safer for those playing on the courts and also restricting the tennis balls and hockey pucks from going under the fence.

Thorndike and Bondsville courts were resealed.

New Burleigh Park's baseball diamonds were returfed in the late summer as well as certain areas of Legion Field.

The replacement of the rotted wooden planks with new aluminum ones, for the portable bleachers, was completed.

However, the permanent bleachers at Legion Field are in drastic need of repair. As suggested by the Park Superintendent either aluminum flooring or more durable precast concrete planks should replace the present deteriorating wooden planks, to provide safer spectator facilities.

The town still lacks adequate facilities at New Burleigh Park to accommodate the increasing number of people using the park. With some 300 children or more during the summer camp plus others that use the facility for local events and outings, the water system is inadequate. Toilets are constantly running out of water pressure causing a blockage of the toilets which in turn causes unsanitary conditions. This problem is an added expense to the town because each time this problem arises a plumber has to be

called to correct the situation. Similar troubles occur with the swimming pool and bubblers.

Due to a snow storm the day before the annual Thanksgiving Day football game at Legion Field both the Three Rivers and Palmer Fire Departments contributed their forest fire trucks and assistance in spraying Legion Field with water to remove the snow. With the use of the Fire Departments apparatus the Park Department employees were able to have the field in fine shape for the game.

Because of unseasonable temperatures this winter, it was impossible to retain a good layer of ice on all skating rinks. However, whenever possible, the rinks were available for skating.

Vandalism has increased this year at most parks. Police and the public have cooperated greatly in trying to curb such action.

We would like to thank Mr. John Dyl, Director of the summer recreation program at New Burleigh Park and his staff for their cooperation with the Park Department. Excellent supervision of the children attending the program resulted in minimal maintenance costs.

When you have your cookouts at New Burleigh Park this spring and summer, you can thank Palmer High School Industrial Arts Instructor, Ed Libera, his assistants Dennis Swierad, Russell Webb and 50 of their students for the fine shape much of the park is in. Every year for the past eight years, the Industrial Arts Department in conjunction with the Park Department has participated in many projects to improve and up-grade the facilities at the park.

As part of the program this past May the students spent two weeks making repairs and other improvements in the park area including the construction of fences, walkways and a bridge. In addition, they transplanted trees, built signs, thinned the forest, cleaned the underbrush and further improved the miniature golf course they built last year.

The citizens of the town that use New Burleigh Park should very well be proud of the students from the Industrial Arts Department of Palmer High School.

We also wish to express our sincere thanks to the children and adults for their cooperation and consideration while using the park facilities, to Oliver Beauregard, Highway Superintendent, James Ammann, Water Department Superintendent, and Fire Chief Gus Theodore for thier assistance in helping to complete many of our park projects. To the Three Rivers Fire Department for their help in clearing off snow on Legion Field for the Thanksgiving Day football game, to Police Chief Harold Olsen, his officers and members of the Police Auxiliary for their vigilance of park property, to individuals of other Town Departments, to Park Superintendent

Mike Russo and his staff and to The Honorable Board of Selectmen for their help and guidance whenever needed.

Respectfully submitted,

David Johnson, Chairman James Duke, Secretary William Cole Robert DeMaio Walter Pluta

#### PALMER RECREATION COMMITTEE REPORT

Once again, the past year showed an overall increase in the attendance of our summer program. If this trend continues, additional programs and activites should be offered in order to meet the recreational needs of the children of our community.

This year, our program offered opportunities for children to participate in such activities as archery, pillow polo, softball, basketball, arts and crafts, pellet rifle practice, roller skating, swimming, hiking, and many other organized games. The program was instructional, as well as recreational, in nature. All participants were encouraged to take advantage of our offerings.

The regular hours at Burleigh Park were from 9:00 a.m. to 3:30 p.m. — weather permitting. All formal activities began on Monday, June 26, and closed on Wednesday, August 16, 1978. The swimming pools at Eager Playground and Burleigh Park remained open until Labor Day.

The Red Cross Instructional Program was conducted at Forest Lake as a direct result of the generosity of Mr. Roland D'Amato, operator of the resort. Water safety instructors Martha Laurion and Paul Golas directed and supervised this phase of our program. All the children that took an active part in the program received instruction in the various phases of survival swimming and rescue techniques. If this program is to florish, the Town must give serious consideration to the availability of waterfront property for our use. As you probably know, the Town of Palmer does not have any property suitable for water safety instruction. We feel that such property would greatly benefit all our citizens; therefore, we strongly urge all concerned parties to assist in meeting this important objective.

This past year, we have worked very hard to provide our youngsters with a well-balanced and organized summer program. However, we have not stopped here. The Recreation Committee is continuing to research and investigate many new and varied proposals for residents of all ages. But in order to improve existing programs and expand into different areas, we need your continued support.

In closing, we would like to express our gratitude to all the people that made our programs so successful. With this type of cooperation, we are sure that many positive things can be accomplished in the future. A special thanks must be extended to the fine Park Department staff, under the direction of Michael Russo. A great deal of our success must be credited to the dedication and concern of this valuable group.

Respectfully submitted,

Paul P. Frydryk Chairman

The Palmer Recreation Committee:
Marion Koslik, Secretary
Sandra Reep
Gerald Aliengena
Joseph Hinchey
James T. Duke
Charles H. Jasak
Walter J. Majka
Edwin J. Rehor

#### REPORT OF THE MILK INSPECTOR

I respectfully submit my report on the following licenses issued for the year 1978:

37 Milk Store Licenses at	1.00	37.00
15 Oleomargarine Licensesat	1.00	15.00
4 Vehicle Milk Licenses 5 yrat	2.00	8.00

60.00

Respectfully submitted,

Frank J. Swiatlowski Milk Inspector

### REPORT OF THE BUILDING INSPECTOR

The following is a summary of my activities as Building Inspector during the year 1978:

Permits were approved, and specifications reviewed, and construction monitored for the following type new facilities:

- a. 24 Single Family Dwellings
- b. 16 Garages-Carports and sheds
- c. 1 Non-Residential Building
- d. 15 Structures other than Buildings

Permits were approved, plans and specifications reviewed, and construction monitored for the following type additions, alterations or conversions:

- a. 14 Dwelling Units
- b. 16 Other building and structures

Permits were approved, plans and specifications reviewed for the demolition of the following:

- a. 1 Non-Residential Building
- b. 1 Residential Building

Respectfully submitted,

Richard W. Rollet Building Inspector

#### REPORT OF THE REDEVELOPMENT AUTHORITY

The year 1978 proved a very busy and productive year for the Palmer Redevelopment Authority in the endeavor to complete the Industrial Park. The contract to construct 4,800 feet of Railroad spur at a cost of \$161,000.00 was approved by DCA. The bonding Company approved Contrac Inc., performance bond, the contract signed with the construction to start May 1. It was also necessary to sign a contract for \$12,000.00 for the installation of a switch and 100 ft. of track with the Central Vermont R.R., connecting the Park to the main Central Vermont R.R. system. The PRA will receive \$20.00 per car until the above is repaid.

During the summer as construction of the spur progressed, an additional 300 feet of track was authorized for the sum of \$9,000.00 thus bringing rail service through Lot 13. The spur is now complete and accepted by the CV, and PRA and fully paid. Engineering cost of laying out the way, drawing the bid forms, the supervision of the job etc., amounted to \$18,267.77, bringing the full cost of the Rail Spur to about \$191,247.77.

The final past due payment of \$944.01 of the Bondsville Fire and Water District was paid, thus completing the contract for water installation in the Park.

All land damage cases have been settled and paid in full. The court decisions along with negotiated settlements were very upsetting and unrealistic, but at least are settled and are now history. The Pro-tonto awards amounted to about \$224,150.00. Additional court judgments, settlements, and interest were about \$201,972.67.

		Additional
Parcel	Pro-Tonto	Settlement
Α	\$30,000.00	\$50,174.66
М	24,000.00	33,645.18
1	23,700.00	20,000.00
L	1,800.00	2,450.35
В	52,200.00	42,000.00
3	2,100.00	2,500.00
2	800.00	2,500.00
J	19,700.00	
Н	35,500.00	7,000.00
N	1,400.00	210.00
С	22,400.00	13,491.65
F	650.00	1,250.00
5	9,900.00	1,250.00
4		3,750.00

In June, the PRA cooperating with the Valley Bank and Dr. Ronald Stinnett hosted an Open House and promotional campaign for surrounding Industrial Realtors. This was a very successful affair, it was an opportunity for area Industrial Realtors to see and learn important facts on the Park.

Several industries have expressed interest in locating in the Park. Two very key industries had some executives and Engineers spend considerable time here in compiling information, borings, and statistics on the Park. The interest of Industry locating in Palmer is present, the negative publicity involving the Park and Community, high interest rates, business climate have all contributed to a "Wait and See" attitude.

The PRA held several meetings with Valley Bank officials to discuss the future marketing of the Park and to enlist support in arranging a meeting with J.B. Williams. PRA Attorney Douglas Nichols was instructed to send a letter to J.B. Williams requesting a meeting and payment of the past due account of \$400,000.00 or at least one payment of \$100,000.00 on the due date of August 5, 1978.

Instead in early August the PRA received a six page letter and settlement proposal from J.B. Williams through Dr. Ronald Stinnett. The PRA discussed and rejected this proposal as unacceptable.

The PRA through the Valley Bank and Atty. Fred Pillsbury requested an urgent meeting with J.B. Williams. This Special Meeting was held September 11, at 7:00 P.M. in Palmer, the PRA and Atty. Douglas Nichols with J.B. Williams, Dr. Stinnett and Atty. Fred Pillsbury. Selectman Palmer Santucci was invited and attended as a representative of the Board of Selectmen.

Due to the nature of the discussion and possibility of Court Litigation, the meeting was held in Executive Session. Some of the areas of discussion:

- 1. Breach of Contract caused by delay in RR Siding.
- 2. Failure to Construct RR 7,100 feet instead of 5,100 feet.
- 3. Failure to remove Belchertown Chimney and debris.
- 4. Failure of J.B. Williams to honor his Contract.
- 5. J.B. Williams refusal to make necessary payments.

After much discussion and a review of the original option, a basic oral agreement was negotiated and agreed upon in principle but subject to favorable action at a regular PRA meeting on Sept. 14. This meeting to be open to the Public and the Board of Selectmen.

At this regular meeting the oral agreement was thoroughly discussed with all present. This new proposal to resolve the impasse between the PRA and Williams was to be subject to the urban Renewal and Covenants in the present option.

 Payment schedule as described in present option to be maintained but moved ahead 4 years with first payment of \$100,000,00 to be made in 1978 — then 79 etc.

- 2. The three grants of \$100,000.00 to the Town of Palmer would start in 1982 83 etc.
- Williams to accept the RR Siding as laid out and as is presently.
- PRA would purchase Lot 16-a total of 7½ acres in settlement of Belchertown Chimney problem.
- 5. Move the 200 job stipulation forward 4 years from 1980 to 1984 still subject to same conditions in present option.
- 6. Eliminate the 750 job requirement in present agreement and releast the \$200,000.00 escrow account plus interest to Williams.
- 7. Both parties exchange signed agreement canceling any possible litigation on the past interpretations in option agreement.

The PRA voted to accept this proposal as outlined on Monday Night, Sept. 11, 1978 and authorize both legal counsels to define and submit the final draft to both parties and to the Department of Community Affairs for final acceptance.

The PRA came in for severe critism by the Board of Selectmen for giving consideration to this new agreement. The PRA viewed this situation in a practical light that it might be better to meditate than litigate.

- 1. Another cause for delay in getting industry into Park.
- 2. Expensive litigation could be avoided.
- 3. Lack of adequate money to hire qualified legal counsel.
- Legal and technical interpretations of some of clauses and options in original option if PRA lost the suit the Town might be assessed heavy financial damages.
- 5. The PRA insists a guaranteed payment clause become part of any new agreement, safeguarding the community from any great financial loss over extended years.

Within one week a complete draft of the above proposal was completed and mailed to DCA for study and comment. The PRA scheduled a Boston Meeting with DCA, Dr. Stinnet and PRA. During this meeting some changes and approaches were suggested and considered. The most important stipulation by the PRA be, "That a payment guarantee had to be part of this new agreement."

At a second meeting in Boston, the same principles being involved and the suggested changes made, DCA and the PRA are satisfied and are now waiting for a decision on acceptance by J.B. Williams.

As 1978 was drawing to a close the PRA received in writing permission from Barry Endelson to enter on his property to resolve the Belchertown Chimney Situation in 1979. The PRA have already met with Belchertown Officials to discuss this problem.

We, on the PRA enter 1979, hopeful, that the negative criticism of our efforts to serve our community diligently is past, and assure the people of Palmer that efforts and decisions will continue to be for the benefit of the community.

Neil M. McDonald, Chairman John D. O'Brien, Vice Chairman Mary C. Krawiec, Secretary Thomas W. Haley, Treasurer Leonard J. Sabourin, Asst. Treas.

#### HOUSING AUTHORITY

Laurel Manor, the housing project for low income elderly, situated on Fletcher Street, will have been in operation eight years in February of 1979. The 48 apartments are now occupied by 48 single people, 45 women and 3 men.

Several of the residents have become partially incapacitated during the past year and we are now receiving assistance with laundry, meals, housekeeping and health care, the services being funded by the State-funded home-makers program, and the Federally-funded health aid program. This State housing, coupled with these supportive services, makes for a comfortable existence for people who meet the low income standards. Security and comfort remove many of the concerns for the Elderly, and provide for happiness and well being, which is constantly evident among the residents of Laurel Manor.

The project consists of five well constructed buildings, which are maintained and managed by a five-person board, known as the Palmer Housing Authority. Each resident pays rent computed at twenty-five per cent of his or her annual net income, and the rental income is used to heat, light and maintain the project.

The annual state audit completed in March of 1978 showed the project to be in a healthy financial condition, and well managed.

Respectfully submitted,

#### PALMER HOUSING AUTHORITY

Myrtle F. Davis, Chairwoman Rev. Guy M. Judkins, Vice Chairman Aloysius J. Tyburski, Treasurer William J. Lemanski, Asst. Treasurer Richard E. Fontaine

#### REPORT OF THE CONSERVATION COMMITTEE

The Conservation Commission hereby submits its Annual Report for the year 1978.

The Commission has held ten regular meetings on the third Monday of each month excepting July and August.

The Commission has held two hearings under the Wetlands Protection Act and after due consideration has issued Orders of Conditions. Members have made twelve field trips to investigate problems.

Members have attended educational conferences as follows: The Massachusetts Conservation Commissions Conferences at Holy Cross College in March and at the University of Massachusetts in October; two Hampden County Conservation Commission Seminars on Flood Insurance and on Ways County Commissions Can Help Each Other Through the Exchange of Information. Mrs. Golas attended a workshop at the University of Massachusetts on #208, Water Pollution Control.

Our April Meeting was held with Members of the Planning Board, Board of Health, and the Assessors, so that we might hear Mr. Charles Douchy of the Dept. of Agriculture Soil Conservation Service explain Maps which the Service has drawn up to depict Palmer's land uses and vegitation. These Maps showed agricultural lands, Wetlands, forest lands, and urban areas. After explaining what services his office could provide for us, Mr. Douchy left us with a copy of the Maps which we now have on file.

Members joined members of the Planning Board in attending a Public Hearing on Town Gravel and Loam By-Laws and later met with State Inspectors from the Soil Conservation Service to visit Sand & Gravel Banks.

The commission has been considering purchasing a parcel of land for Conservation purposes.

The Commission has continued its association with the Lower Pioneer Valley Regional Planning Commission and renewed its membership in the Hampden County Association of Conservation Commissions and the Massachusetts Audubon Society.

Respectfully submitted,

Margaret P. Ziegler, Secretary David E. Johnson, Chairman Jane E. Golas, Vice Chairman Harry W. Johnson Andrew Roman Richard D. Stred William M. Wadas

## REPORT OF THE PLANNING BOARD

The year 1978 was marked by many changes. The most important being the adoption, at a Special Town Meeting March 13, 1978, of the Acts of 1975, and specifically Chapter 808, which created a new Chapter 40A. This is "The Zoning Act" and is the first rewriting of Chapter 40A in many years. Some of the changes will be beneficial to Palmer.

The Zoning Act mandates a "Special Permit Granting Authority," in this case the Planning Board; which after a public hearing may grant the permit. The official town map became "The Zoning Map of Palmer".

A new by-law for the regulation of outdoor signs was also approved by the voters.

A new building inspector was appointed and is responsible for the enforcement of these by-laws.

Until this time the board issued the following-

Building Permits 13 Gravel Permits	Amounting to
Turned over to the Treasurer	\$725.00

Atty. Walter Topor was elected to fill the vacancy created by the resignation of Mrs. Deborah C. Pelletier.

The Planning Board continues to change and retine its by-laws as needed; always with the betterment and future of Palmer in mind. We also would like to thank the citizens of Palmer for past and continued understanding and cooperation.

Respectfully submitted,

Robert Graveline, Chairman Joseph Slowick, Vice Chairman Daniel V. Fogarty, Clerk Doris Nahabedian Walter Topor

## REPORT OF THE CEMETERY COMMISSIONERS

The Cemetery Commissioners met regularly during the year on the third Monday of the month, except July and August, at 7:00 P.M. in the Town Administration Building.

The four cemeteries under the jurisdiction of the Commissioners: Oak Knoll, Four Corners, Palmer Center, and Old Three Rivers, were maintained and improved to the fullest possible extent allowed by available funds.

Continuing incidents of vandalism during the year consumed time and funds which otherwise might have been utilized for further improvement and beautification of our cemeteries.

We acknowledge with sincere appreciation the cooperation and help when requested of the Park Department, Highway Department, Police Department and the Personnel Advisory Board.

Respectfully submitted,

Walter L. Chase, Chm. Robert E. Geer Ernest G. Hiersche, Jr.

## REPORT OF THE BOARD OF APPEALS

This board acted on four petitions for variances during the course of the year 1978. All four variances were granted.

Income generated by this board was \$140.00

Board of Appeals

Joseph Topor, Jr., Chairman Joseph Marhelewicz, Vice Chairman Mitchell Dobek, Clerk Gordon Dean Dr. William Riley Floyd Romanik Dr. Charles A. Labuz

## REPORT OF THE BOARD OF LICENSE COMMISSIONERS

The Board of License Commissioners issued the following licenses during the year of 1978:

All Alcoholic	Annual	Seasonal
Inn Holders Retail Package Clubs Druggist Restaurants	4 5 4	0 1 1 0 2
Malt Beverage & Wine		
Retail Package Restaurants Common Victuallers I.D. Cards		0 0 0

The Board also issued 29 one-day permits for the sale of Malt Beverages and Wines and one (1) General License for a Rooming House.

This Department turned over to the Town Treasurer the total sum of \$9,651.00 for the year 1978.

Respectfully submitted,

Leon Wlodyka, Chairman Bernard Lamery, Vice Chairman Milton Misiaszek, Clerk

## REPORT OF THE PALMER PUBLIC LIBRARY

The trustees of the Palmer Public Library expected 1978 to be somewhat of a leveling off year relative to registrations, circulation and usage of the facility itself. The reasons being that the new library had completed its second full year of operation, growth had been astounding, in actuality, greater and faster than anticipated, and that possibly the novelty of a new facility had worn off. These expectations of a leveling off materializing were quickly dispelled as quarterly reports were presented and final statistics for the year were assimilated and evaluated.

A number of significant factors are indicative of just how the library circulation did grow in 1978:

- 1. In 1977, for the first time in its history, the library circulation reached and surpassed the milestone of 100,000. The number to be exact was 101,220. This past year, 1978, the total circulation for the library reached 116,510. This is approximately a 15% growth rate which in any business circle would be considered very substantial growth and the sign of a thriving service.
- 2. Registrations of new borrowers was and is still continuing at a very steady pace. Presently, we find ourselves registering approximately 100 new borrowers on a monthly basis this on top of an already large register of 6,369 card-carrying patrons.

We as a board of trustees and a library association have indicated on numerous occasions that circulation statistics in themselves do not truly present an accurate assessment as to what is occuring in our facility. There are numerous services and programs that involve many people who are not regular borrowers and would not ever present themselves within our facility if it were not for these services. In this respect, we truly have become the resource, cultural and educational center for the entire community. This should be the goal of each and every library in the Commonwealth. Evidence of Palmer's commitment to this objective has been very visible:

- 1. For the first time in many years in the community, an outdoor band concert featuring Banjos and Brass was presented by the association on the lawn of the library. Presently, the trustees are making plans to present an entire series of concerts this coming summer.
- 2. The library subscription series has been expanded to twelve events this year. The series opened in November with a program by John and Gretchen D'Armond and will close in late May with a noted Polish classical pianist presenting a program of Chopin and Paderewski. The emphasis this year has been to present a variety of cultural programs from classical to folk music, to ethnic nights and an evening of mime.

- 3. The use of the community room has nearly met our objective of seeing it utilized every day and night of the week. Presently, civic groups and library programs are occupying this room on a Sunday through Saturday basis. Groups such as the Golden Agers, Jaycees, Cub Scouts, Elbow Plantation Society, etc., are using the room regularly.
- 4. The library has extended and expanded its services considerably to the elementary schools and students of Palmer:
- a. The hours of the bookmobile have been altered to provide services to all village schools during peak school hours.
- b. Classroom library visitations and subsequent instruction in research techniques have been increased.
- c. Many new after-school and Saturday programs have been added this past year, including macrame, film making, crocheting, story hours, arts and crafts and film programs.
- d. The gifted and talented program of the Palmer Schools in using the library facilities on a weekly basis as its base of operation and for much of its subsequent in-depth work.
- 5. New equipment and materials this past year in the library include a cassette duplicator that will make copies of cassette tapes quickly and inexpensively for anyone desiring to do so. Other additions to our services include educational toys that may be borrowed from or utilized within the library. We hope by the time this report is publicly presented to be offering typewriters and space for their use within the library itself.
- 6. The library is still continuing to receive grants through applications made by Mrs. Bentley, our fine librarian. New grants this past year include one of \$750.00 to increase and improve our law library and a \$4,120.00 grant to train tutors to work with adults unable to read and those who have English as a second language within the home. In the last year and one-half, nearly \$18,000 worth of grants have been received.

February 1979 initiated the centennial year for the Palmer Public Library. To celebrate and commemorate this event, an entire week and one-half of special events was held which included: essay, logo and book-mark contests; a no-admission presentation of Pinocchio by the Connecticut Valley Ballet; Art Shows; story hours to all our Grade 1 students by noted children's author, Jane Yolen; special presentations by mime artists, Stromberg and Cooper and the Sweet Adelines; a writing and publishing of the official history of the library and a culminating open house.

We, as a Board of Trustees and Association, using the theme of the centennial, pledge ourselves to continue on with this same fervor that our predecessors did when they opened the first storefront library 100 years ago, in our attempting to provide the best and most possible services to our community.

# Acknowledgments

The Palmer Public Library is most fortunate in many respects. It has outstanding and total support from the community and its governing bodies for its many endeavors; it has a dedicated, loyal and high-caliber staff, and has a Board of Trustees and Association that will give whatever time, energies and expertise necessary to provide extended services. To our townspeople, elected and appointed officials, civic organizations, the library staff, our association and to my fellow trustees, thank you for your support and any and all successes we have had.

Respectfully submitted.

Alphonse E. Murray, Jr.
President
Palmer Library Association

## REPORT OF THE COUNCIL ON AGING

The Palmer Council on Aging is now in its fifth year of existence, with its present location in the Memorial Hall quarters on Central Street. The additional space made it possible to provide more projects and programs at the Center.

The IRS Mobile Unit is a first in Palmer serving the elders in their tax assistance.

The Health and Nutrition program continues to be a major concern to our elderly citizens and primary in the minds of this Council. The "Home Delivered Meals" program became a reality this year with about twenty-five elderly citizens being serviced by the Home Care Corporation of Springfield, Mass. with a noon day meal being delivered by volunteer drivers to their homes three days a week.

Nutrition programs continue daily at the Pathfinder Regional Vocational, the Palmer High School and once a week at St. Thomas Parish Center.

The health screening clinics are free and are open to everyone sixty years and over, sponsored by the Home Care Corporation in conjunction with the Quaboag Valley Visiting Nurse Association. They have proven successful and are still being held every other month at various locations in the town to accommodate our elderly in Palmer and the villages. An average of eighty people are being screened at these clinics.

A Salisbury beach trip for the Annual Senior Citizens' Day was planned with eighty-six senior citizens participating in this trip. The Burleigh Park annual picnic was attended by over one hundred elderly and this event is always a huge success.

A snow shoveling program was initiated with fifteen young people clearing snow for some sixty elderly in all villages. Transportation for these youngsters was provided by the Council on Aging.

We participated in the CETA Youth Program by employing a local High School girl at the Senior Center during the summer. (25 hrs. per week.)

Helped the Lion's Club in obtaining the names of people who were shut-ins and the ones who would be alone on Thanksgiving Day to serve them their Thanksgiving dinners. Served were thirty-six at the church and thirty at home.

The highlight of the year was the arrival of our new Mini-bus which accommodates approximately three hundred senior citizens and handicapped monthly transporting them to lunch programs, shopping trips, medical appointments, etc. A yearly trip is also planned to the Eastern States Exposition and the Ice Capades.

A monthly Newsletter is sent out to all Palmer Senior Citizens to keep them informed of various programs available at the Center and other interesting information, which we have been told is well received.

Also this year, through the Memorial Gift Fund, a beautiful stereo system was purchased for the Center for everyone's listening pleasure.

# REPORT OF THE PATHFINDER REGIONAL VOCATIONAL - TECHNICAL HIGH SCHOOL DISTRICT

# ANNUAL REPORT - 1978

The Pathfinder Regional Vocational-Technical High School District Committee, under the chairmanship of David A. Staples of Belchertown, is pleased to present the following report to the citizens of the four town district of Belchertown, Monson, New Braintree, and Palmer, covering the 1978 calendar year. Other members of the committee during this period included Vice-Chairman Floyd Romanik, Jr. and Treasurer Michael Cavanaugh of Palmer, Secretary Marceline B. Matrow of Monson, and New Braintree representative Russell O. Dean, whose untimely death shortly after the expiration of his term shocked and saddened the Pathfinder community. That town has not been represented since April due to its failure to elect a member at the annual election.

# CURRICULUM AND ENROLLMENT

The October 1, 1978, enrollment figures for the school included 418 students distributed among the towns as follows: from the Pathfinder district towns, Palmer 176; Monson 109; Belchertown 68; and New Braintree 16. Among the 418 were 49 out-of-district students from the six neighboring towns which have been exploring the possibility of an expanded district over the past year: Ware 17; Warren 6; West Brookfield 14; North Brookfield 7; Hardwick 4; and Oakham 1. These towns paid a per student tuition charge to Pathfinder of \$2,150.00.

Foremost among the curriculum introductions was the initiation of a formal Cooperative Education Program under the supervision of Ben F. Galas. This program provides the opportunity for alternating periods of study and paid work experience to a carefully selected group of senior students. Under the watchful eye of the state regulations covering such programs, approximately 15 to 20 students will gain valuable on-the-job experience at local business and industrial sites. In many instances, such experience leads to job placement upon graduation, and in all cases, closer ties between the vocational school and local employers have come about. The program has been funded for its first year by a \$17,000 grant from the Massachusetts Department of Education.

A further step forward in curriculum was taken in preparation for the comprehensive program audit conducted by the Department of Education in May of the year. Under current state regulations, each vocational school in the Commonwealth must be reviewed periodically for compliance with Chapter 74 of the Massachusetts General Laws. Shop and related curriculum in all ten approved vocational areas was refined, in some cases revised, and then written in acceptable format for representatives of the Department to review. It was a source of pride to the Committee that the school was found to be in total compliance with Chapter 74.

Suggestions made by the audit review team will be evaluated by the Committee and included in a plan for improvement in specific areas over the next three years. The audit process also included Special Education (Chapter 766), Equal Educational Opportunity (Chapter 622), and student records.

Continued emphasis was placed upon the practical experience gained through out-of-school projects by advanced students in several shops. The second house building project was completed in Bondsville by carpentry students, and a third was begun in Monson this fall. Landscaping for the elementary school in New Braintree was planned and carried out by students in the vocational agriculture program. Other work crews in carpentry made a substantial contribution to the construction of the music room addition to Belchertown High School, and electrical students installed the wiring in the Finnerty House for the Town of Belchertown. Culinary Arts students assisted at the dedication of the Palmer Town Library and provided a buffet luncheon for the groundbreaking ceremonies at the new Waste Water Treatment Plant which were attended by Governor Michael Dukakis and other state and local officials. These examples are but a few among many such projects which have enabled the school to cooperate with local town efforts to bring about improvements at substantial savings to the taxpayers. The students do undertake other work for citizens of the district from time to time provided the request has educational benefits within the approved curriculum.

Pathfinder's adult evening school continued to provide the district with an educational program tailored to the needs and interests of persons attempting to improve their job skills or to learn elements of a new trade. As in the previous year, however, a growing emphasis was placed on providing opportunities for adults to pursue liesure time interests and around-the-home types of useful skills. Over 600 took advantage of spring and fall offerings. In addition, the University of Massachusetts, through its Continuing Education Division, offered credit granting courses to area citizens through cooperative arrangements with Pathfinder.

## **FACULTY AND STAFF**

The professional teaching staff at Pathfinder included 43 persons at the beginning of the 1978-79 school year. An additional electronics teacher was approved by the Committee to complete the staff for the satellite program being operated in cooperation with the South Hadley Public Schools, and a part-time speech clinician was employed to provide services to students in accordance with Chapter 766. At the conclusion of the calendar year, an additional special education teacher for the shop areas was added through the assistance of P.L. 89-313 funds. Overall, the Committee was able to eliminate one position from the total number approved in the FY 1979 budget. As noted previously, the administrative staff included a Director of Cooperative Education for the first time, but otherwise remained unchanged.

## PUPIL SERVICES AND SPECIAL NEEDS

Pathfinder's guidance department was the recipient of a \$8,400.00 federal grant to address the problem of sex-bias and stereotyping in vocational programs and in related activities throughout the district. Activities on that project got under way in late fall and will enable Pathfinder and member town schools to develop methods of encouraging men and women students to investigate careers traditionally closed to one sex or the other. This objective is consistent with a nation-wide effort in vocational education to eliminate thinking of skill training in terms of male or female oriented occupations.

The basic skills of reading and mathematics were given added emphasis for disadvantaged students through the introduction of a Title I Program never before operational in a vocational school in the Commonwealth. Funds from this federally sponsored program enabled Pathfinder to employ a full-time teacher in this area and to expand services on a tutorial basis to specifically identified students.

Pathfinder's fourth graduating class numbered 92 students. Forty-nine percent were placed directly in their field, fourteen percent went on to higher education, another fifteen percent were placed in related work situations, and four percent chose the military. Eighteen percent are in other areas. Among the institutions of higher education attended by this year's graduates were Keene State College, Johnson and Wales College, Springfield Technical Community College, and the University of Massachusetts Stockbridge School of Agriculture. One student received his diploma from Pathfinder after having completed his senior year and his first year of technical college simultaneously.

Pathfinder's special needs program provided services to thirty-four students. A resource room program to assist these students in their academic areas was expanded to include a full-time teacher and an aide. As noted above, speech therapy was provided for the first time within the school, and special education services within shop areas were strengthened by the addition of a second teacher in that area. Each teacher is presently assigned to approximately five shop programs.

Project GROW, the Department of Education funded program for students residing at Belchertown State School and Monson State Hospital, was continued and included six students from Pathfinder's own towns. The program continues to be featured in state and national publications as an exemplary effort and was highly praised by the State Board of Education at its April meeting held at the school.

#### FISCAL AFFAIRS

The School Committee approved an operating budget for FY 1979 of \$1,246,645.00 excluding salary negotiations, as follows:

Administration	80,350
Instruction	.734,175
Other Services	124,695
Special Education	57,900
Operation and Maintenance	.162,600
Fixed Charges	66,925
Fixed Assets	20,000

Anticipated reimbursements from all sources resulted in a net operating budget of \$804,536. Assessments to the member towns based upon this amount in addition to the evening school and bonded indebtedness resulted in: Belchertown \$161,857.30; Monson \$286,914.86; New Braintree \$34,948.43; and Palmer \$475,146.41. Further reductions in this amount were made possible through the application of regional school aid which totalled \$202,368.00.

School officials studied the development and implementation of the new school aid formula with particular attention to its long range impact on district finances. Under this plan passed by the 1978 session of the legislature, Pathfinder received Chapter 70 aid of \$367,132.00, an amount somewhat higher than previously anticipated under the old Chapter 74. The district is, however, in the so-called "save harmless" category with most of the towns of the Commonwealth, and that amount is not expected to grow over the next three years. With the impact of rising costs and inflationary pressures, the projection is not favorable.

Pathfinder continued to vigorously pursue federal funding for as many programs as possible. Several of these successful efforts have been mentioned above. Proposals totalling nearly \$80,000 resulted in programs and personnel having direct benefit to Pathfinder students. In addition \$126,500 in proposals are expected to be approved within the near future, resulting in one additional vocational program offering, the lunch program for the senior citizens, and assistance to a major industry in the Palmer area. Project GROW accounted for another \$174,100 in state funds from the Bureau of Institutional Schools.

Educational programs at Belchertown State School and Monson State Hospital, whose costs were approximately \$2,000,000 were operated through contracts beteen Pathfinder and the Massachusetts Department of Education and the United States Office of Education. Although these programs are administered by personnel at these locations, all fiscal affairs have been handled by Pathfinder staff members. The resulting administrative monies which accrued to the school have been used from time to time by the School Committee to purchase materials and equipment in addition to compensating the district for the time and effort spent in these programs. Savings to taxpayers have been substantial.

Recognizing the growing importance of the use of computers in finance and administration of public schools, the Committee acquired a terminal with access to the State College Computer Network in Boston. This terminal has been utilized to update and maintain the inventory, to further automate student attendance and records data, and to explore the application of a relatively sophisticated computer system to the school's financial operations.

As a result of repeated requests from the Committee, the Bureau of Accounts conducted a thorough financial audit of Pathfinder's accounts this fall. It was the first such audit since the school became a fully operational district. Although the final report has not yet been received, the Committee has already implemented several suggestions and recommendations which came about as a result of the audit and which will result in a greatly improved financial operation.

## **COMMUNITY RELATIONS**

Pathfinder has traditionally been proud of the contribution from its various advisory committees, to which some twenty new members were added this fall. Two meetings were held with the overall advisory committees, the first of which was devoted to a self-evaluation of the vocational programs preparatory to the audit mentioned above. A new general advisory committee was established to conform with the recent Chapter 74 regulations, and this group met twice with the School Committee to discuss programs, job opportunities, and facilities.

The automotive repair program was strengthened by the contribution of two Toyota automobiles for practice work by the students. This generous donation was again typical of such support from national and international concerns as well as locally based industry.

The school continued its support of the senior citizens' lunch program, the Red Cross Bloodmobile, vision and hearing clinics, and a number of other civic activities. The community likewise responded with support for the annual scholarship fund-raising activities and the Toys-for-Tots pancake breakfast, to name but a few.

## **FUTURE PLANS**

With the announcement by the Department of Education of the federal funds allocations to each city, town, and regional school district for the purpose of occupational programming, Pathfinder took advantage of a pool of resources to propose a training program in the field of minicomputers as the twelfth vocational program offering. Some \$95,000 in federal monies granted to the region, its member towns, and the cooperating towns of South Hadley and Granby (through the Hampshire Educational Collaborative) will be utilized to begin and maintain for one year a training

program in this highly employable field. In addition, the electronics program presently being housed in South Hadley as a cooperative program is to be expanded and strengthened through the acquisition of additional equipment and increased student enrollments. District students will also have access to an ornamental horticulture program planned in Granby as part of a growing emphasis by the Commonwealth on providing occupational programming among schools and towns where there is presently limited access to them.

The exploration of ways in which to expand the program offerings to our students has continued, with on-going discussions with surrounding towns regarding the expansion of the district. Monthly meetings have been held with representatives from Ware, Warren, West Brookfield, North Brookfield, Hardwick, and Oakham to discuss various options. This effort has progressed slowly, but the planning committee has methodically analyzed possible avenues for expansion given the present economic climate, student enrollments, employment trends, political realities, and state priorities.

During the coming year, Pathfinder, along with all other vocational school districts in the Commonwealth, will be required to develop a long range plan for providing occupational education to member towns as well, perhaps, as to surrounding communities. Constant attention must be given to population changes, relevance of curriculum offerings, job market indicators, and, not least, the entire picture of state and local support for education in the years to come.

Respectfully submitted,

Michael J. Cavanaugh Representative, Town of Palmer

Floyd D. Romanik, Jr. Representative, Town of Palmer

Gerald L. Paist Superintendent-Director

## SCHOOL COMMITTEE 1978-1979

Lawrence M. Jasak, Chairman Robert W. Dranka, Vice Chairman Joseph J. Malzenski, Secretary

Lawrence M. JasakTerm	expires	1979
Robert S. Dupuis Term	expires	1980
Joseph J. MalzenskiTerm	expires	1980
Robert W. DrankaTerm	expires	1981
Joseph S. RomanikTerm	expires	1981

Regular meetings of the School Committee are held at 7:00 p.m. the first Thursday of each month.

All bills must be in the hands of the Superintendent by the Monday before the above-mentioned day.

Office Hours: 8:00 a.m. to 12:00 noon; 1:00 to 4:00 p.m.

## BUDGET COMPARISON

			Increase or
	1979-80	1978-79	Decrease
Administration	\$ 72,930.00	\$ 76,637.00	\$ -3,707.00
Instruction	2,633,695.00	2,488,777.60	+ 144,917.40
Other School Services	237,219.35	235,411.45	+ 1,807.90
Operation and Maintenance			
of Plant	272,616.00	252,906.00	+ 19,710.00
Fixed Charges	90,236.20	103,203.24	-12,967.04
Community Services	500.00	500.00	
Acquisition of Equipment	21,777.66	11,539.94	+ 10,237.72
Replacement of Equipment	19,047.98	11,919.85	+ 7,128.13
Trade and Adult Evening			
School Expenses	8,700.00	8,700.00	
Tuition	82,772.00	71,432.00	+ 11,340.00
Repairs	60,830.00	51,159.50	+ 9,670.50
Federal Matching Funds	6,000.00	6,000.00	
Surplus Property	500.00	500.00	
	\$3,506,824.19	\$3,318,686.58	+ \$188,137.61

## PLEASE NOTE:

The budget for 1979-80 reflects raises per contract for administrators, teachers, and custodians but **not** for any other personnel. Raises for the latter are under discussion.

#### ANNUAL SCHOOL REPORT

To the School Committee of the Town of Palmer:

It is a pleasure to submit this, my fifth annual report as Superintendent of the Palmer Public Schools. This report will use the format introduced four years ago, for we continue to organize our efforts at improvement through focusing upon specific annual objectives for the entire system. These were initially developed by the Superintendent and then revised after review by the Administrative Council, all members of the staff, and the School Committee before final adoption. For the most part this section of the annual report will reflect our progress to date in implementing the objectives rather than final outcomes.

## Curriculum and Instruction

1. Continue to review and revise on a K-12 basis the following curricula: art, career education, English, health, music, social studies, mathematics, and physical education; and initiate curriculum development in science and foreign languages.

Except for the area of evaluation, the curriccula in art, music, and health education are substantially completed and should be fully completed by the end of this school year. A Health Advisory Committee made up of parents, clergy, and citizens at large in addition to staff has now been formed to review and make suggestions prior to implementation of the total program. It is expected that career education, mathematics, and physical education will also be completed by the end of this school year, and English substantially so. The social studies curriculum through grade 8 is expected to be completed, but the report I have from the department head at the high school provides me no inkling as to what has been or will be accomplished for the rest of this school year in grades 9-12. The K-12 science curriculum and the grades 9-12 foreign languages curriculum development will need at least one more full year for completion.

Program changes and course revisions where necessary are being carried out at the high school by each department as part of the self-evaluation required prior to the outside evaluation in November, 1979, by the New England Association of Schools and Colleges, Inc. In addition to departmental meetings and other special meetings after school, three half days have been provided to help in this self-evaluation during this school year.

Those staff members who have given their time not only during the half days but also in after-school sessions assigned for curriculum development have obviously made the most headway and are to be congratulated for their efforts.

2. Assess degree to which reading is being taught in each subject area at the high school, and provide an inservice program for staff.

One inservice workshop has already been provided and another scheduled dealing with reading in subject areas — e.g., mathematics, science, social studies, etc. It is hoped that the results will persuade more of our high school staff to realize and practice the role of being a teacher of reading — and thus help our students more effectively.

3. Expand and evaluate the cooperative work/study program begun during the school year 1976-77 (part of the Title IV-C project developed by the Superintendent and funded for \$41,300 for 1977-78 and for \$37,700 for 1978-79).

Last year's evaluation of the work/study program showed substantial progress in meeting the objectives. This year the program has been expanded to include 42 students — 23 of whom are new this year. At this date 38 of the 42 have been placed at work sites.

4. Review, revise, and add materials as needed for our Eighth Grade Career Exploration Program, a second segment of the Title IV-C grant noted above; and evaluate the program.

This program has been reduced by 50 percent this year with the placement of four eighth grades at the elementary school level. Some additional materials have been provided for the eighth grades at the high school, and some have been loaned out from the Career Information and Guidance Center to be used with eighth graders at the elementary school level. The evaluation at the end of June, 1978, revealed exciting substantial growth by most of the eighth graders in knowledge of various careers through this program. Evaluations are continuing throughout this school year and reflect to date similar growth to that found last year.

5. Expand and evaluate our Career Information and Guidance Center, the third segment of the Title IV-C grant noted above.

As with the cooperative work/study and Eighth Grade Careers Program, we have reduced the number of objectives for this segment of the Title IV-C grant. Progress to date in the expansion of the use of the Center has been good, although temporarily slowed by the resignation of the Career Information and Guidance Center counselor effective December 22, 1978. A replacement has now been made, and we expect expansion and use of the materials to continue, with pilot programs being initiated at a number of grade levels in the elementary schools this spring.

The television and recording equipment purchased last year through these federal funds were utilized effectively in a curriculum presentation during American Education Week utilizing local cablevision lines to reach community homes. The equipment is also being used in a variety of other ways throughout the school system as well as in the Center.

6. Continue our Academically Talented Program for selected students in grades 5-7, and evaluate its effectiveness.

This program is now in its third year. Following our pre-planned cycle of emphasis, this year is devoted to the social sciences area with an instructor hired with such expertise. Informal results at this time are favorable. Once again the process follows a project approach with emphasis on reasoning and creativity.

7. Continue to review, revise, and evaluate our Special Education program as required by Chapter 766.

The major changes in the Special Education program this year so far have included the addition of a childhood education specialist through extra Title VI federal funds, some additional contract time with a clinical psychologist to work with parents, and an enrichment of the program for those children recently transferred from private facilities to the Palmer Public Schools. The latter program improvements were made possible through federal funds under Public Law 89-213, for which a project was written by the Director of Special Education.

8. Continue to assess achievement test results at all levels, and suggest revisions in methodology and/or curricula where needed.

lowa Test results at grade 3 in the late spring of 1978 showed Palmer at the 94th percentile — thus showing our third graders on the average exceeding 93 percent of all other third graders throughout the nation taking the same test. Recent analyses by the Superintendent and Adminnistrative Council of the Fall, 1978, grades 5 and 7 test data show advances over the past few years and are well above the national average — i.e., fifth grade results overall are at the 81st percentile and seventh grade results at the 68th percentile (up from the 56th percentile last year).

9. Explore the possibility of initiating with suitable guidelines an independent study program at the high school level.

The High School Principal held a meeting with department heads and directors of services December 11, 1978, focusing upon the above objective. In summary he reports as follows: "In terms of initiating an independent study program it is quite evident that adjustments in terms of scheduling and/or monies must be made on behalf of teachers."

10. Develop a reading and study skills program for the high school with initial implementation at grades 9 and 10 (or 8, 9, and 10), and review the role of our present tutors in reading and mathematics relative to such a program.

The report of the committee charged with this responsibility — namely, Miss Curtis, Mr. McAllister, and Mr. Paydos — note that the present tutorial program now being conducted on a limited referral basis at the high school appears to have had the best success at that level compared to other remediation programs in the past. Therefore, they recommend that there should be a

"continuation, refinement, and expansion of our current tutorial program" rather than an actually scheduled class dealing with study skills and the improvement of basic language and mathematics skills. Because the Superintendent has seen the latter program operate effectively in at least two high schools, he is not convinced at this time that we should not continue to study the possibility of initiating it in Palmer. Meanwhile, he does feel that the present tutorial program is serving a good purpose.

## Supervision

Continue to review and revise supervisory program and procedures for teachers.

The Superintendent has been in contact with the President of the Palmer Teachers Association relative to this objective, but so far no mutually agreeable date has been found for an initial meeting this year. It is hoped that such a meeting can be held shortly, however.

## Administration

1. Consider a revised job description for department heads.

The Superintendent contacted the President of the Palmer Teachers Association relative to the above objective because the department heads last year had indicated they preferred to have the Association discuss this with the Superintendent. One very productive meeting has already been held, and it is expected that one or two more will complete the job.

2. Update and review with administration and School Committee our enrollment projections for the next ten years, assessing space and staff needs accordingly.

The updated ten-year enrollment projections have been reviewed by the Superintendent and Administrative Council, and copies of the projections have been provided the School Committee. As a result of analyzing these projections, the Superintendent is recommending that a minimum of three staff members be cut next year, which will include the elimination of a second grade and a seventh grade section for 1979-80. The need for the use of the portable classrooms at the high school is still apparent for 1979-80, with some question as to their need beyond that time.

3. Continue to review and implement as space permits school reorganization as recommended in the progress report of objectives for 1974-75 — i.e., K-5, 6-8, 9-12 — or use a K-8 organization as a second choice.

As a result of his analysis of the ten-year enrollment projections, the Superintendent has recommended, and the School Committee has approved, the placement of all eighth grades in the elementary schools beginning with September, 1979. Therefore, we

shall have a basic organization of K-8 or 1-8 and 9-12 beginning September, 1979.

4. Continue to review the advisability of requiring evidence of some mastery of basic skills as a condition for graduation from high school, a study initiated during the school year 1976-77, and review the State Board of Education's competency standards report.

With the decision by the State Board of Education to initiate a policy requiring some evidence of basic skills attainment at the elementary level with a second assessment no later than ninth grade, it is apparent that Palmer, as well as other school systems, must develop both a program and assessment to meet this requirement. Fortunately, our assessments via the lowa Test of Basic Skills in grades 3, 5, and 7 should put us in a position to meet the test at the elementary school level. We also have a similar test at the ninth grade level. Although each local school district has this responsibility, it is apparent that a program of remediation over and above what is now provided in most high schools may be needed to fully comply with this policy mandate. A committee has been formed and is working to fulfill this requirement at an early date.

5. Continue to assess the value of our present inschool suspension program in relation to its deterrent force, its cost in terms of teachers, its use of classroom space, etc.

The High School Principal reports that he and the Assistant Principal feel that the inschool suspension serves Palmer High School students better than the out-of-school suspension approach because students are given the opportunity to study while in school. He also reports that there is some evidence of its deterrent value to date.

6. Continue to review with administration and School Committee ways and means by which to obtain the most return for each of our educational dollars, including continued efforts to conserve energy, increased bidding where desirable, etc.

The Superintendent continues to stress with principals and, through them, all staff the need to conserve energy in the form of both fuel and light. We also continue to stress involvement of students through curriculum units which stress energy conservation as well as future energy sources.

We are continuing to assess the special piece of equipment attached to the burner at Park Street Elementary School by specific monthly dipstick test to determine the actual gallons of fuel utilized — with comparisons then to be made with past years, taking into account degree days.

Our major efforts this year will concentrate on the high school, where we expect to install as many storm windows as possible. The Superintendent has been in touch with some specialists in

this field to develop specifications for this purpose. One of the problems at the high school is the very large windows as compared to our other schools.

We increased our bidding procedures this year by including paper products for the cafeteria and expect to continue expanding bidding procedures as needed and possible.

7. Evaluate the impact of the policy re "No high school student shall have more than eight study halls per week."

Our Director of Guidance Services, Mr. Paydos, and the High School Principal, Mr. Woods, report that the above policy had a favorable impact on both program selection on the part of students and in reducing high numbers of students in a given study hall. More elective courses are also being pursued by an additional number of students. The only problem seems to be with a few seniors where some of the semester courses in the first semester are not matched with semester courses in the spring.

8. Review the possibility of providing space at the high school for approved extension courses for credit, at no cost to the school district.

To date the Superintendent and Administrative Council have not had the opportunity to develop any extension courses for credit, although some space would be available for them.

# **Community-School Relations**

1. Review ways to improve community-school relations, especially relative to improving the flow of information concerning programs and activities of the schools.

Veterans' Day and American Education Week programs provided opportunities for the community to visit the schools and also to participate in some cases — e.g., as part of Veterans' Day celebration. In addition to some very excellent exhibits throughout the schools during American Education Week, a program highlight was the taping and presentation through local cable facilities of a video program dealing with curriculum development at various levels in the Palmer Public Schools. This video equipment, as earlier noted, was purchased from federal funds through Project M.O.R.E. Open Houses at the elementary level as well as an Open House at the high school brought forth a number of parents, although the Palmer High School's Back-to-School Night suffered because of inclement weather.

Press releases, radio reports, issues of **School Times**, and informal letters to parents continue to be important means of getting information to the community concerning our programs and school activities.

2. Consider an expansion of the use of volunteers and resource personnel in the schools.

The major expansion in the use of volunteers and resource personnel so far this year as well as during the spring of 1978 results primarily from the activities carried on in our Career Information and Guidance Center at the high school. Additional resource people have been utilized at the elementary school level for reports and/or presentations to one or more classes.

# High School Evaluation

Select additional committees required and complete above evaluation in preparation for evaluation in November, 1979, by New England Association of Schools and Colleges, Inc.

Twenty different committees are operating this year concerning the above self-evaluation with only one to date having completed its mission — namely, the one dealing with a Statement of Philosophy. However, the others are expected to be completed by the end of this school year. As earlier noted under Curriculum, course and program reviews in all departments are also continuing in anticipation of the outside evaluation in November, 1979.

## **ADDITIONAL HIGHLIGHTS**

As part of the implementation of Chapter 622 of the General Laws of The Commonwealth of Massachusetts, and Title IX and Section 504 of federal regulations, the Palmer Public Schools as well as all other schools in The Commonwealth must evaluate formally and report such evaluations to the proper authorities concerning the implementation of each of these laws or regulations. As a result, total staff will make such formal written evaluations in a half day provided for this purpose in the spring. The paperwork entailed in these and other regulations is becoming extremely time-consuming as well as costly.

# Palmer High School

New courses added to the Palmer High School curriculum this year include American Pop Music, Yearbook Publications, and Distributive Education.

Because of many problems with senior privileges in the past, a drastic refinement occurred this year. No longer is the high school cafeteria used as an open study hall for seniors. Strict guidelines have been placed on eligibility for the senior privilege with the anticipation that this will induce a more favorable educational climate for senior students.

This school year a substantial improvement has been made in terms of student tardiness. The assistance of high school staff

and the cooperation of many parents have aided the high school administration immeasurably in its endeavor to decrease student tardiness.

## **Elementary Schools**

The evaluation concerning the progress, academic and otherwise, of the eighth grade students at the high school and those eighth grade students at the elementary schools last year reflected positive results at both levels. Pupils at the elementary school, however, showed generally fewer disciplinary problems and better attendance. This year two additional eighth grades were placed at the elementary school level, and all eighth grades will be at the elementary school level effective September, 1979.

\* \* \* \* \* \* \* \* \* \*

The Superintendent would like to take this opportunity to commend those many dedicated staff members who have contributed their time and talents beyond the normal day in furthering our efforts to improve our schools and our programs and to work with individual students. The Superintendent is also pleased to compliment the contributions of Mrs. Matera. Cafeteria Manager; Mr. McKee, Director of Maintenance and Operation; and members of his office staff — Miss Mohamed, Mrs. Oliveira, and until September of this school year, Miss Witkoski. It was a distinct loss to lose Miss Witkoski, but after fifty-two years of devoted service, she certainly deserves retirement years filled with good fortune and happiness. The reorganization of the Superintendent's office now has Miss Mohamed as office Manager, Mrs. Oliveira as Chief Account Clerk, and a new addition in the person of Mrs. Chrobak as Assistant Account Clerk. The help of all of these individuals, plus those members of the Administrative Council, have been of immense aid to the Superintendent in carrying out his responsibilities.

\* \* \* \* \* \* \* \* \*

Although this progress report on our objectives and the high-lights noted above are but a summary of actions taken and activities pursued, it should be evident that the Palmer Public Schools are focusing upon and moving purposefully toward goals which will result in improvement — something which all institutions must do if they are to continue to thrive and even survive.

Respectfully submitted,

William J. Nelligan, Ed.D. Superintendent of Schools

## REPORT OF THE BOARD OF SELECTMEN

The year 1978 produced no dramatic changes in the day-to-day operation of town government. Construction of the Water Pollution Control project continued on schedule. The usual concerns of the citizens over inflation, cost of living and taxes were ever-present. These concerns are justified and are shared by the members of the Board of Selectmen

Mr. Gordon H. Christiansen, chairman of the Board of Selectmen, chose not to seek re-election. The April elections resulted in Palmer N. Santucci, Jr. gaining a seat on the Board along with incumbents, Mr. William J. Lemanski and James L. St. Amand.

On April 19, 1978 the Board re-organized with Mr. St. Amand being elected Chairman, Mr. Lemanski being elected Vice-Chairman and Palmer N. Santucci, Jr. being elected Clerk of the Board.

Some of the highlights of the year's activities are noted below:

## **TAXES**

As a result of increased State Aid and a very favorable "Free Cash" position, our Board was pleased to announce a decrease of \$2.00 in the tax rate from \$35.50 to \$33.50. The Finance Committee scrutinized budgets very closely and town departments were instructed to hold the line on expenditures in an effort to stabilize the tax rate. We are hopeful that State Aid will continue to ease the burden on the local property taxpayer.

## WATER POLLUTION CONTROL PROJECT

The twenty million dollar water pollution control project continued into its second year of construction. At year's end, work was progressing on the 5.6 million gallons per day wastewater treatment plant in Three Rivers, three interceptor pipelines and five sewage pumping stations.

The system includes capacities for the Town of Monson, South Belchertown and Diamond-International Corporation. Under agreements with the Town of Palmer, the Towns of Monson, South Belchertown and Diamond-International Corporation will pay their proportional share of the local capital costs and annual operating and maintenance costs.

The consulting engineers, Tighe & Bond, Inc., are presently engaged by the Town of Palmer in developing a system of Sewer User Charges and Industrial Cost Recovery as required by the U.S. Environmental Protection Agency regulations.

The following is a summary of the work completed as of December 31, 1978:

	Total Value of Work Completed	Contract Bid Price	Percent Complete
Contract 1 Palmer Interceptor	1,669,913	1,685,890	99%
Contract 2 Thorndike-Bondsville Interceptor	1,184,875	2,188,216	54%
Contract 3 Three Rivers Interceptor	208,800	366,905	57%
Contract 4 Pump Stations 1 and 2	1,163,300	1,608,000	72%
Contract 5 Pump Stations 3, 4 and 5	760,025	894,675	85%
Contract 6 Wastewater Treatment	4,684,645	8,918,172	53%
Plant	9,671,558	15,661,858	

Total project percent complete to date, December 31, 1978 — 62%.

Present projections are that the project will be operational by September 1980.

## K-MART AT GEORGE WASHINGTON PLAZA

Through the combined efforts of the Selectmen, Board of Assessors, Three Rivers Fire and Water District, Three Rivers Water Commissioners and many civic leaders, K-Mart Corporation announced its intention to purchase and develop the George Washington Plaza. The run-down shopping center will be converted into a modern retail shopping complex.

One of the major obstacles to overcome before K-Mart agreed to locate in Palmer was an inadequate water system which K-Mart insisted be improved to meet their standards. The Selectmen and the Board of Assessors, with the approval of the Department of Corporation and Taxation, arranged for an abatement of \$148,000 in back taxes which K-Mart gifted to the Three Rivers Fire and Water District along with their own contribution of \$85,000 to construct a new water line to serve the shopping center.

K-Mart proposes to invest two to two and one-half million dollars to reconstruct the shopping center and estimates that 200 full and part-time jobs will be generated through the development of the plaza.

The decision by K-Mart to locate in Palmer should provide a boost to the area economy, provide jobs for our citizens and enlarge our tax base.

We welcome K-Mart to the Town of Palmer and wish them much success in this new endeavor. The store itself is scheduled to open on March 22, 1979.

## PALMER INDUSTRIAL PARK

Our Board is not satisfied with the progress and development at the Palmer Industrial Park located in Bondsville.

A total of \$400,000 in annual payments for the sale of the park is in arrears as differences between the Palmer Redevelopment Authority and the owner of the park, J.B. Williams, continue unresolved.

In the meantime the town is obligated to make annual payments on principal and interest on the town's share of the construction cost with no prospect of tenants for the park and no jobs for the citizens of Palmer as intended when the Economic Development Administration favored the town with an approximate one million dollar grant.

A proposed new agreement between J.B. Williams and the P.R.A. is being negotiated. Parts of that agreement are not acceptable to the Board of Selectmen including the elimination of a jobs clause which obligates the developer to provide 200 jobs by March 1, 1980 and the repurchase of the land on Main Street, Bondsville, the site of the 1968 industrial fire, at an amount much greater than the original selling price. Also, the Selectmen oppose the proposal to cancel the \$400,000 due by J.B. Williams for the sale of park land with a new schedule of payments which would project the amount due to future years.

These are bona fide concerns expressed by the Board of Selectmen and the citizens at large. We hope that these differences can be resolved and industry can be found to locate in the park to aid our sluggish economy and to provide jobs as was the original intent.

## LIQUID NATURAL GAS TRUCK TRAVEL

The Board of Selectmen wrote letters to and held meetings with the Mass. Department of Public Works requesting that L.N.G. trucks originating in Ludlow be restricted from using Thorndike Street and Shearer Street in Palmer. Citing the dangers involved to persons in schools, hospitals, churches and shopping areas along the route of travel, the Board suggested that Bay State Gas use alternate routes through Ludlow to reach the Mass. Turnpike. If complete restriction cannot be achieved, the Board will seek partial restriction during daytime hours and will also seek a compromise on the number of trucks which will pass through Palmer.

## PERSONNEL BY-LAW

At the close of the year the Town of Palmer was still without a Comprehensive Personnel By-Law, a Classification Plan and a Compensation Plan.

The Personnel Advisory Committee was charged with the responsibility of developing job descriptions and salary ranges for all appointed and elective positions in the town under section 3-5 of the charter which was adopted by the voters on March 4, 1974.

The Board of Selectmen requested that a complete Personnel By-Law be presented to the Selectmen for review, comment and subsequent approval by November 1, 1978 so that the proposal could be placed before the voters at the April 1979 annual town meeting.

The Personnel Advisory Committee experienced three resignations out of the five-member Board during the year and therefore was crippled in its efforts to complete its assigned task.

We acknowledge that the task of the Personnel Advisory Committee is unenviable. However, with a diligent effort on its part and with the cooperation of the Board of Selectmen we should have a complete personnel by-law at this time one year from now.

#### FEDERAL AID FOR WARREN STREET RECONSTRUCTION

The Board of Selectmen was advised that their request for reconstruction of Warren Street under the Federal Aid to Secondary Rural Roads Program was approved by the Massachusetts Department of Public Works, District #3 Office, Worcester, Mass.

The continuance of the reconstruction of Warren Street will involve a distance of 2.2 miles at an approximate cost of \$700,000. The Federal Government will fund 70% of the cost and the State will fund the remaining 30%. The proposal is for a 32-foot roadway (two twelve-foot travel lanes and two four-foot paved shoulders) with an additional three-foot grass shoulder on each side for this project. Work on this roadway will involve both horizontal and vertical realignment to flatten the curves and improve sight distance. The Dept. of Public Works will supervise the Planning and Construction phases of the project. Actual construction will begin in approximately two years.

## **PUBLIC WORKS PROJECTS**

The town received a \$100,000 E.D.A. federal grant for a roadway and drainage project in 1977. Forest Street in Bondsville was reconstructed with these funds along with drainage improvements in Sunset Acres, Three Rivers.

The \$131,000 Recreation project off Main Street, Three Rivers was substantially completed. This new development will provide three tennis courts and one baseball field for the youngsters of the community. Only the development of an acceptable stand of grass has delayed the formal acceptance of the contract. The recreation area should be in use by the summer of 1979.

## CETA PROGRAM

The Town of Palmer continued to participate in the Comprehensive Employment Training Act program as a member of the Hampden County Manpower Consortium. The Consortium suffered severe cutbacks in funding from the Federal Government for the fiscal year beginning October 1, 1978. This, of course, reflected in a decrease in participants in Palmer as well as other member towns. At the close of the year there were eleven persons in the CETA program in the following departments:

Selectmen, Police, Highway, Palmer Public Library, Bondsville Water Department, Three Rivers Water Department, Park Department, Treasurer's Office and the Quaboag Valley Visiting Nurses Association.

The CETA program continues to provide skills and jobs for the unemployed and at the same time the town benefits from the cost-free services.

## **NEIGHBORHOOD YOUTH CORPS PROGRAM**

The Board of Selectmen placed 55 participants in various agency locations in the Town during the summer of 1978. This program is primarily geared to low income and economically disadvantaged youngsters between the ages of 16 and 21. The participants work a 25-hour work week for a period of eight weeks. The Counselor-Supervisor was Mr. William Gallagher who has handled the program for the Selectmen for the past few years.

## **RETIREMENTS:**

Acting Chief of Police, Henry S. Janasiewicz and Edward J. Salamon, Veterans' Agent, officially retired on January 31, 1978.

#### APPOINTMENTS:

Harold L. Olson	Acting Chief of Police	2-1-78
Edward J. Jasak	Acting Sergeant, Police Dept.	2-1-78
Howard E. Case	Acting Sergeant, Police Dept.	2-1-78
Lawrence J. Ochs	Veterans' Agent	2-14-78
Richard W. Rollet	Building Inspector	4-24-78
James R. Phaneuf	Board of Health	5-23-78
Howard E. Case	Sergeant (Permanent)	
	Police Department	10-31-78
Frank J. Kitch	Board of Registrars	10-31-78
Harold F. Thatcher	Gas Inspector	11-14-78

At the close of the year the Board is awaiting the results of a civil service examination for Chief of Police. The examination was held on August 19, 1978. A certified list of eligible candidates was expected on or about February 1, 1979. The examination was open to applicants on a state-wide basis.

# SPECIAL TOWN MEETINGS IN 1978

To provide the citizens with an account of what transpired at our special town meetings during the past year, we offer the following summary:

March 13, 1978

- Article 2. Voters accepted the provisons of Chapter 808 of the Acts of 1975.
- Article 3. Voters amended town by-law to comply with mandatory provisions of Chapter 808 of the Acts of 1975.
- Article 4. Voters amended the existing by-law entitled, "Removal of Topsoil, Loam, Gravel, Clay or Fill" and adopted a by-law regulating signs in the Town of Palmer.
- Article 5. Voters transferred \$2,600 to the School Department account from available funds in the treasury to defray in part the School Custodian's contract.

September 25, 1978

- Article 2. Voters transferred \$175,000 from Free Cash to reduce the FY-1979 tax levy.
- Article 3. Voters transferred \$3,022 for the purchase of Pedestrian Safety Materials for the Police Department. Monies to be reimbursed by the Commonwealth of Massachusetts.
- Article 4. Voters discontinued portion of Old Boston Road which runs through the parking area at the George Washington Plaza.

The Board of Selectmen extends its gratitude to all town officials, committees, employees and citizens who have made a contribution to make government work in the Town of Palmer.

The Board is confident that the year 1979 will show progress and growth in the community.

Respectfully submitted,

James L. St. Amand William J. Lemanski Palmer N. Santucci, Jr.

## REPORT OF THE INSPECTOR OF ANIMALS

All inspections ordered by the Division of Livestock Disease Control have been completed and requirements of Section 19, Chapter 129, of the General Laws of Massachusetts have been complied with and reports filed with the Division at 100 Cambridge Street, Boston.

There were 145 visits made to examine and quarantine dogs known to have bitten persons. None showed symptoms of rabies and were released after 10 days.

Respectfully submitted,

Louis S. Jacek, Inspector of Animals

# TOWN EMPLOYEES' SALARY SCHEDULE

Following is a list of earnings for the Calendar year 1978 for all other Town Employees in the Town of Palmer, Mass.

## PLUMBING INSPECTOR

There have been 54 permits issued, and during the year I made the following inspections:

108 House Inspections

- 32 Sewer Treatment Plant Inspections
  - 3 Inspections for the Housing Court
- 1 Inspection for the Board of Health

I also made one trip for a hearing to the Housing Court in Springfield.

Very truly yours,

Henry Salamon
Plumbing Inspector

### REPORT OF THE FORESTRY DEPARTMENT

During the past year 54 trees of various specie were planted throughout the town. The newly planted trees were of the disease and pollution resistant variety.

Fourteen trees were removed due to old age, decay and Verticillium Wilt. Strong wind storms severely damaged two trees that had to be removed, also breaking many limbs.

Dead wood removal on older trees and raising of low limbs on newly planted trees was done in many sections of the town. Scared trees were painted to prevent decay.

Dutch Elm Disease continues to take its toll of trees. During the year 38 diseased trees were removed in accordance with the sanitation recommendations of the Department of Natural Resources.

Every year research comes up with a recommendation that might provide a break-through to contain the Dutch Elm Disease, and every year the break-through proves to be a disappointment. Nothing to date has proved successful in checking the Elm Tree disease.

Scouting for Gypsy Moth egg masses did reveal egg clusters, however, the number of egg masses found present no problem at this time.

The Fall Web Worm often mistaken for the Gypsy Moth was heavy in certain sections of the town. The foliage stripping of the worm is primarily confined to the area around the web. Since the defoliation takes place during the latter part of July and August and the growing cycle being completed, little or no damage is sustained by the trees. In essence the Fall Web Worm is more unsightly than damaging.

Poison Ivy irradication requests were numerous. All requests were attended to with good to excellent results.

The perennial major problem concerning the department is road-side brush maintenance. It seems nothing grows better and faster than brush. The town has many lineal miles of roadsides and blind corners to maintain. Spraying with Herbicides causes browning, making an unsightly mess on an otherwise green background. Cutting and removing the brush only stimulates more sucker growth. Hopefully, in the near future the department can resolve this problem.

During the year the department had the help of C.E.T.A. workers and Neighborhood Youth Corps workers during the summer.

Respectfully submitted, Stanley J. Strzemienski Superintendent Insect Pest Control

Oliver Beauregard Tree Warden

### **BOARD OF HEALTH**

The Palmer Board of Health herewith submits this report for the calendar year ending December 31, 1978.

On the dates shown herewith, Immunization Clinics were held by the Board of Health in 1978 for the following communicable diseases:

MMR—Poliomyelitis—DPT	and DT	February 11
MMR-Poliomyelitis-DPT	and DT	April 1
MMR-Poliomyelitis-DPT	and TD	June 10
MMR—Poliomyelitis—DPT		August 12
MMR-Poliomyelitis-DPT	and TD	October 14
MMR—Poliomyelitis—DPT	and TD	November 16 & 17 (In-school)
MMR—Poliomyelitis—DPT	and TD	December 2
(1414D): 14		

(MMR is Measles, Mumps, Rubella) (DPT is Diptheria, Pertussis, Tetanus) (DT is Diptheria, Tetanus) (TD is Tetanus, Diptheria)

Influenza for Elderly

November 25

and

Dog Rabies Clinic

April 29

Reportable Diseases:

Chicken Pox	10
Dog Bites	35
Gonorrhea	.5
Scarlet Fever	.1
Salmonellosis	
Streptoccal Sore Throat	.14
Viral Hepatitis

### REPORT OF THE PALMER HISTORICAL COMMISSION

During the year this Commission was the recipient of the gift of a Circa 1845 farmhouse on Mt. Dumplin Road from Mr. Joseph Battagglia, the developer of the Meadowbrook Green Condominiums. It is hoped that at some future date this will be the repository for the historical artifacts and memorabelia of the Town of Palmer and its inhabitants. A historical research library would also be an aim of this Commission. However, there is much work to be done on the restoration of the building and establishing the necessary security provisions. With the help of Mr. Charles Lennon of the Pioneer Valley Regional Planning Commission, State & Federal funding will be persued.

Our thanks also to Mrs. Herbert Bishop who so kindly gave us shutters with which to cover the windows. Much of this old glass is irreplaceable and the shutters are a great help in preventing vandalism. Also our thanks to the many young people who assisted in putting them up.

Mr. Lennon has been very helpful to this Commission in the continued cataloging of the historical inventory of the Town. He has taken many of the photographs which are required by the inventory.

Respectfully submitted,

Palmer Historical Commission

Reginald Gale, Chairman Daniel Fogarty, Vice Chairman Marion F. Lis, Historian Margaret Donovan, Secretary Doris Nahabedian, Treasurer William Wadas Stephen Lebida

Respectfully submitted,

Joseph S. Gill Town Treasurer

### REPORT OF TOWN ACCOUNTANT

I herewith submit the following Financial Reports for the fiscal period, July 1, 1977 through June 30, 1978:

Balance Sheet
Statement of Cash Receipts
Statement of Cash Disbursements
Statement of Appropriations, Expenditures
and Balances
Statement of Antirecession Fiscal Assistance
Program Funds
Statement of Federal Revenue Sharing Funds
Statement of Bonded Indebtedness
Reserve Account Transfers

In conjunction with the sale of \$1,840,000 in General Obligation Bonds for Wastewater Treatment facilities and Purchase and Renovation of the new Library on June 15, 1979 the Town Accountant provided extensive documentation for the Offering Circular on the Town's Indebtedness, Comparative Balance Sheets, Surplus and Revenue and Comparative Budgets.

The Accounting Department was called upon to provide documentation to the Commonwealth of Massachusetts, Department of Education, in conjunction with an official Audit of the 1962 High School Addition. This was an enormous task considering the lapse of time between the actual construction and the year of the audit.

The Bureau of Accounts, Department of Revenue, Commonwealth of Massachusetts, began an audit of the Town's books in October for the fiscal period, July 1, 1977 through June 30, 1978. In addition to the examination of financial statements, specific observations and recommendations will be made relating to compliance with State and Local laws, internal control, accounting practices, policies, systems and procedures according to the guidelines of the Office of Revenue Sharing, Department of the Treasury. The audit was still in progress on December 31, 1978.

Stanley J. Bigda Town Accountant

#### 1979 TOWN WARRANT COMMONWEALTH OF MASSACHUSETTS

Hampden, ss:

Town of Palmer

To either of the Constables of the Town of Palmer in said County:

#### **GREETINGS:**

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn all the inhabitants of the Town of Palmer qualified to vote in elections of town officers to meet at the several polling places in said Palmer, designated by the Selectmen, to wit: In Precinct A at the Palmer High School; in Precinct B, at the Thorndike Grammar School; in Precinct C, at the Three Rivers Grammar School; and in Precinct D, at the Bondsville Grammar School; on Tuesday, the seventeenth day of April, 1979 at ten o'clock in the forenoon, then and there to give in their votes on one ballot to the Town, for the following officers:

For a term of one (1) year:

One (1) Moderator

Three (3) License Commissioners

Five (5) Park Commissioners

One (1) Board of Health Member (to fill vacancy)

For a term of Three (3) years:

One (1) Selectman

One (1) Town Clerk

One (1) Assessor

One (1) School Committee Member

One (1) Board of Health Member

One (1) Cemetery Commissioner

One (1) Pathfinder Regional Vocational Technical High School District Committee Member

For a term of five (5) years:

One (1) Planning Board Member

One (1) Palmer Housing Authority Member

Also to vote by ballot, which shall be "yes" or "no" upon the following question:

"Shall the town distribute to its insured employees, after deducting the town's total administrative cost, the balance of any group insurance dividend which Yes shall be based upon the employees' proportionate share of the total premiums paid for all insurance No coverages?"

The polls will be open at ten o'clock in the forenoon and will be closed at eight o'clock in the evening.

And you are further required to notify and warn the inhabitants of said Palmer, qualified to vote in town affairs, to meet at the Palmer High School, Converse Street in said Palmer on Monday the twenty-third day of April, A.D., 1979 at seven o'clock in the evening, then and there to act on the following articles, viz;

- ARTICLE 1. To choose all usual Town Officers.
- ARTICLE 2. To hear and act on reports of committees.

ARTICLE 3. To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning July 1, 1979, in accordance with the provisions of General Laws, Chapter 44, Section 4, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with General Laws, Chapter 44, Section 17.

#### Recommended

**ARTICLE 4.** to see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money as permitted by law to meet any appropriations made or expenses incurred under any article of the warrant.

#### Recommended

- (a) Relocate light from Pole #10 to Pole #9.
- (b) Relocate light from Pole #12 to Pole #11.
- (c) Relocate light from Pole #15 to Pole #14.

#### Not Recommended

**ARTICLE 27.** To see if the Town will vote to raise and appropriate any sum of money to reconstruct and install proper drainage and resurface with Type I material, Sibley Street, Precinct C, from Chudy Street to Barker Street, a distance of approximately 880 feet, or take any action relative thereto.

#### Not Recommended

**ARTICLE 28.** To see if the Town will vote to authorize the Selectmen to file a Bill to be acted on by the Great and General Court of the Commonwealth providing as follows:

That the Town of Palmer be and hereby is authorized to make payment to present Town employees, who were participants in the Blue Cross - Blue Shield Health Insurance Group Plan during the period January 1, 1977 to December 31, 1977 a rebate of a portion of the \$42,988 received by the Town for said period according to the procedure outlined in M.G.L.A. Chapter 32 B, Section 8A. This Bill to be effective upon its passage. Providing further that the Town Treasurer is hereby authorized to make use of available funds in the Treasury without any further appropriation or action by the Town Meeting to accomplish the purposes of this legislation.

#### Recommended

**ARTICLE 29.** To see if the Town will vote to accept Section 8G of Chapter 40 of the General Laws of the Commonwealth of Massachusetts which reads as follows:

Agreements for Mutual Police Aid Programs

A city or town which accepts this section may enter into an agreement with another city or town, or other cities and towns, to provide mutual aid programs for police departments to increase the capability of such departments to protect the lives, safety, and property of the people in the area designated in the agreement. Said agreement may include the furnishing of personal services, supplies, materials, contractual services, and equipment when the resources normally available to any municipality in the agreement are not sufficient to copy with a situation which requires police action.

#### Recommended

**ARTICLE 30.** To implement Article 9, Section 10 of the Charter of the Town of Palmer by requiring the Selectmen to appoint, within ninety days, a committee of seven registered voters who are qualified by education and experience to analyze the By-laws of the Town of Palmer for the purpose of deleting those By-laws that are obolete and of preparing for presentation to the voters of the Town any new By-laws necessary to fulfill the objectives of the Charter. Each Precinct must be represented by at least one committee member.

#### Not Recommended

**ARTICLE 31.** To see if the Town will vote to accept the following Easements:

**PARCEL A** from Albert F. and Lorraine E. Corsi, bounded and described as follows:

BEGINNING at a point in the Westerly line of New Hampshire Avenue, April, 1978 Town Layout and shown on a plan recorded in Hampden County Registry of Deeds, Planned Book 180 Plan 69 said point is at the Southeasterly corner of Lot 23 owned by said Corsi, and runs thence;

N 79° 2' 20" W 109.49 feet along land now or formerly of

Raymond F. Niles to a point; thence turning and running

N 11° 7' 30" E 28.51 feet along land now or formerly of Raymond F. Niles to a point; thence turning and running

S 57° 54' E 32.79 feet along land of said Albert F. Corsi, et ux

to a point; thence turning and running

S 68° 32' E 80.17 feet to a point on the Westerly line of New Hampshire Avenue as aforesaid; thence turning and running

S 11° 7' 30" W 2.07 feet along the Westerly line of said New Hampshire Avenue to the POINT OF BEGINNING.

BEING an easement for the construction and reconstruction of a drainage culvert crossing New Hampshire Avenue. Together with the right to enter upon said premises to maintain, repair and replace said culvert.

SAID easement shown on a Plan entitled "Plan of Easements in Three Rivers, Palmer, Mass., Surveyed for Palmer Board of Selectmen. Scale 1" = 30', November 22, 1978, Kenneth C. Sherman," Hampden Registry of Deeds, Plan Book 181 Plan 123.

PARCEL B from Raymond F. Niles, bounded and described as follows:

BEGINNING at a point in the Westerly line of New Hampshire Avenue, April, 1978 Town Layout and shown on a plan recorded in Hampden County Registry of Deeds, Plan Book 180 Plan 69 said point is at the Southeasterly corner of Lot 23 owned by Albert F. and Lorraine E. Corsi and runs thence;

S 11° 7' 30" W 18.00 feet along the westerly line of New Hampshire Avenue as aforesaid to a point; thence turning and running

N 69° 42' W 130.99 feet along land of Raymond F. Niles, the grantor herein to a point; thence turning and running,

N 11° 7' 30" E 32.89 feet along said land of Niles to a point; thence turning and running

S 57° 54' 21.15 feet along said land of Niles to a point, thence turning and running

S 11° 7' 30" 28.51 feet along land of Albert F. Corsi, et ux to a point; thence turning and running

S 79° 2' 30" E 109.49 feet along land of Albert F. Corsi, et ux to the POINT OF BEGINNING.

Said parcel of land is to be an easement for the construction and reconstruction of a drainage culvert crossing New Hampshire Avenue and with the right to discharge water from said culvert onto adjoining land of Raymond R. Niles. Together with the right to enter upon said premises to maintain, repair and replace said culvert and keep the point of discharge clear.

Said Easement shown on a Plan entitled "Plan of Easements in Three Rivers, Palmer, Mass. Surveyed for Palmer Board of Selectmen. Scale 1" = 30', November 22, 1978, Kenneth C. Sherman" Hampden Registry of Deeds Plan Book 181 Plan 123.

Or take any other action relative thereto.

#### Recommended

**ARTICLE 32.** To see if the Town will vote to adopt the following amendment to the Town's Zoning By-laws:

#### SITE REVIEW PLAN

#### A. Purpose

The purpose of site plan review is to ensure that the design and layout of certain developments permitted as of right (or by special permit) will constitute suitable development and will not result in a detriment to the neighborhood or the environment.

In considering a site plan the (Special Permit Granting Authority SPGA) shall assure:

a. Protection of adjacent areas against detrimental or offensive uses on the site by provision of adequate surface water drainage, buffers against light, sight, sound, dust and vibration, and preservation of light and air;

b. convenience and safety of vehicular and pedestrain

movement within the site and in relation to adjacent areas;

c. adequacy of the methods of disposal for wastes;

d. protection of environment features on the site and in adjacent areas.

#### B. Projects Requiring Site Plan Review

No building, other than a (single-family or two-family dwelling or building accessory to such dwelling) shall be erected or externally enlarged (or, no business or industrial building shall be erected or externally enlarged, and no business or industrial use shall hereafter be established or expanded in ground area) except in conformity with a site plan bearing an endorsement of approval from the SPGA). The SPGA shall adopt regulations for carrying out its duties under this section.

#### C. Procedure

1. An applicant for site plan review under this section shall file with the SPGA 5 copies of each of an application and a site plan. Unless this requirement is waived by the SPGA the site plan shall

be prepared by an engineer, architect, landscape architect.

2. The site plan shall show all existing and proposed buildings, existing and proposed contour elevations, structures, parking spaces, driveway opening, driveways, service areas, facilities for sewage, refuse and other waste disposal and for surface water drainage, wetlands, surface water, areas subject to the 100-year flood, and landscape features such as fences, walls, planting areas, walks, and lighting, both existing and proposed. The site plan shall also show the relation of the above features to adjacent ways and properties. The site plan shall also show all contiguous land owned by the applicant or by the owner of the property which is the subject of the application.

3. The applicant shall submit such material as may be required regarding measures proposed to prevent pollution of surface or groundwater, soil erosion, increased runoff, changes in ground-

water level, and flooding.

4. The applicant shall submit such material as may be required regarding design features intended to integrate the proposed new development into the existing landscape, to enhance aesthetic assets, and to screen objectionable features from neighbors.

5. The applicant shall submit such material as may be required regarding the projected traffic flow patterns into and upon the site for both vehicles and pedestrians and an estimate of the projected number of motor vehicle trips to and from the site for an average

day and for peak hours.

6. The SPGA shall within five days of receipt transmit to the planning board, the building inspector and the conservation commission copies of the application and site plan. The boards receiving these copies shall have up to 40 days to make recommendations to the SPGA.

7. The SPGA shall hold a public hearing within 45 days of receipt of an application and shall take final action within 90 days from the time of hearing, as provided in G.L. Ch. 40a, § 9 and 11, (and in section 6 of this bylaw/ordinance, relating to special permit procedures). Such final action shall consist of either (1) a finding and determination that the proposed project will constitute a suitable development and will not result in detriment to the neighborhood or the environment or (2) a written denial of the application stating the reasons for such denial. Approval may be made subject to conditions, modifications and restrictions as the SPGA may deem necessary; and any construction, reconstruction, alteration or addition shall be carried on only in conformity to such conditions, modifications or restrictions and in conformity with the application and the site plan.

8. (If the planning board is the special permit authority under this section, it shall, insofar as practical, adopt regulations establishing procedures for submission of a combined plan and application which shall satisfy this section and the board's regulations

under the Subdivision Control Act.)

9. Projects reviewed by other town boards are exempt as follows: Those projects which would normally be reviewed by said other boards or not required by the SPGA.

#### Recommended

**ARTICLE 33.** To see if the Town will vote to accept and allow a Town Way in Depot Village, Precinct A, bounded and described as follows:

BEGINNING at a concrete bound in the Easterly side of Mason Street, at the Northwesterly corner of land of John C. and Nancy S. Witbeck, as shown on a plan recorded in Hampden County Registry of Deeds, Plan 134, Page 50, and running thence:
